

Chairman Davis and Rep. Waxman write NFL Commissioner Paul Tagliabue to request additional information from the NFL on the league's steroid testing program. At an [April 27, 2005, Committee hearing](#), the NFL announced changes to its performance-enhancing drug policy, including several that would make prohibitions against players taking testosterone more stringent. As a result of these changes, Chairman Davis and Rep. Waxman request additional information on the results of testosterone testing conducted by the NFL in recent years.
